

New Tasks for STWG?

1. Update Climate Impacts report in light of IPCC, NCA, etc. Increase emphasis on economy, revenues, investment decisions [Priority (d)].
2. Provide scientific and technical support for community-scale climate vulnerability assessments and resilience strategies [Priority (f)].
3. Develop scientific background to inform post-2020 emissions reduction trajectories [Priority (h)].
4. Improve technical effectiveness of inventory of GHG emission sources and sinks [Priority (b)].
5. Ensure sound scientific basis for communication and education [Priority (a)].
