

Certified Sand Mound Installers as of - 6/23/2015

Per COMAR: Sand Mound systems shall only be installed by an MDE certified sand mound installer and that installer must be onsite while the sand mound system is being installed. MDE does not certify companies. Certification shall be given to individuals who have successfully completed a course of study and examination in the practice of construction of mound systems. Sand mound installer certification shall be valid for a period of 5 years and may be renewed by MDE at that time, provided the installer has complied with all of the appropriate laws and regulations. This certification may be withdrawn at any time for violation of these regulations.

For those sand mound systems that also require a BAT unit, the installer must also be an MDE certified BAT installer and be certified as an installer through the authorized BAT distributor. In addition, certain counties may require a local septic system installer's license.

Page 20 of 44

For those sand mound systems that also require a BAT unit, the installer must also be an MDE certified BAT installer and be certified as an installer through the authorized BAT distributor. In addition, certain counties may require a local septic system installer's license.

Page 31 of 44

For those sand mound systems that also require a BAT unit, the installer must also be an MDE certified BAT installer and be certified as an installer through the authorized BAT distributor. In addition, certain counties may require a local septic system installer's license.

Page 43 of 44

For those sand mound systems that also require a BAT unit, the installer must also be an MDE certified BAT installer and be certified as an installer through the authorized BAT distributor. In addition, certain counties may require a local septic system installer's license.
