## Providers of UST Operator Training Courses and Certification

### What You Need to Know

The courses, certifications, and services provided by the companies listed below have been reviewed by the Maryland Department of the Environment (MDE) and have been determined to meet the minimum qualifications as required in Code of Maryland Regulations 26.10.16. This list was prepared by MDE from information known and available at the time of preparation. MDE makes no claim as to its completeness, or to the quality of services provided. Inclusion on this list is not to be considered an endorsement by the State of Maryland. MDE strongly recommends that the consumer obtain prices and review company references before entering into agreements with any contractor or service provider.

# Providers of UST Operator Training Courses and Certification

## What You Need to Know

### Class C Operator Training & Certification

---

The training for a Class C Operator is valid only after the designated Class A and/or Class B Operator completes the Maryland Class C Operator Training Checklist and Certification form (link below) at the specific facility that they are designated. A prospective Class C Operator is not required to attend one of below approved Class C Operator Training & Certification courses and the course does not replace the regulatory requirement to complete the checklist.

1st Choice Gassy Tanks  
6922 W. Linebaugh Ave #101
