PRECISION TESTING METHODS and COMPANIES

The Maryland Department of the Environment recognizes Precision Tightness Testing Methods included on the National Work Group On Leak Detection Evaluations (NWGLDE) website, http://www.nwglde.org/. The individual tester must have a valid certification from the manufacturer of the test method at the time of the test and the testing equipment must be operated and calibrated per manufacturer's requirements.

<u>INDIVIDUALS</u> (not Companies) who possess current certification in a third party approved precision test method listed on NWGLDE may also perform containment sump and spill bucket testing in accordance <u>Maryland Containment System Testing Protocol.</u>
